

Welcome to a new year of Tanglewood! We have so much to offer schools this coming year, including a brand new EYFS/KS1 programme, perfect for little people with big imaginations.

Teddy Bears Picnic EYFS

Venture through our magical woodland looking for the Tanglewood Teddies! A beautiful half or full day of story telling and fun activities based on how woodland animals survive.

Key concepts: Imagination, speaking and listening, creativity, social skills and understanding of the natural world

Enchanted Woods EYFS/KS1

Did you know Tanglewood has magical fairies and dragons? Come and search our woodland for a very cheeky dragon and discover the other mythical creatures of Cannock Chase. Dragons, fairies, boggatts....what more could you ask for?

Key concepts: Imagination, speaking/listening, creativity, social skills and understanding of the natural world.

NEW Bring your book to life day!

Is your class enjoying a special book at school? Are there pirates, fairies or even monsters? If yes, how would you like your very own day at Tanglewood, linked directly to your favourite book? Literacy classes at their very best! To find out more, contact the Tanglewood Team

Key concepts: Imagination, speaking/listening, creativity, social skills and understanding of the natural world

Habitats! KS1

Venture through our woods identifying trees, plants and animal signs. The children will minibeast hunt, discover habitats and learn all about food chains and hibernation. After lunch we get ready to enjoy fun seasonal activities.

Key concepts: Habitats, hibernation, trees, identification, care of the environment, food chains

Living History Days! KS2

Our Living History days focus on Stone age, Ancient Greeks, Romans, Anglo Saxons and Vikings.

Bring your school to Cannock Chase and travel back in time.

Hunt for woolly mammoths, build a Viking longship, discover the history of ancient Greeks and Anglo Saxons or become a Roman soldier.

Key concepts: Survival, teamwork, problem solving, communication skills, co-operation, materials, habitats

Team Building KS2

This session is ideal as an “end of year” forest fun day or even to bond your class at the start of a new academic year, and don’t forget a perfect excuse to shake off SATS. You can also mash up team building with survival skills, from den building to sensory games or races to puzzle solving. This is a day everyone will enjoy, whatever the weather!

Key concepts: Survival, teamwork, problem solving, communication skills, co-operation, materials, habitats

Habitats! KS2

An in-depth look at a woodland throughout the year. Walk through our woods identifying trees, plants and animal signs. Search for animal habitats and learn about the importance of hibernation, germination and pollination! After lunch enjoy seasonal art and activities.

Key concepts: Habitats, hibernation, germination and pollination, tree identification, care of the environment, food chains

Tangle up!

If you see 2 separate activities you like the look of, let us know and we can create a day that suits your requirements.

Art and habitats or archery and minibeasts! The choice is yours!
